

PRODUCT DATASHEET

PRODUCT NAME	
Brand	: CURAS [®]
Category	: Urology
Range	: Drainage Bags
Product REF	: 20560
Product Description	: C6 Closed System Bag, 2L, 110cm, NRV, HCCV, NFSP, D.Chamber, Filter, Hanger, TC, Sterile BASIC

PRODUCT DESCRIPTION

Sterile, disposable 2L closed system urine drainage bag, with anti-reflux drip chamber.

DURATION OF USE

The bag is for long-duration used. Recommended for the duration of 8 - 14 days, under normal use. Properties of the product is subject to user condition, e.g. frequency in draining, medical condition, mobility of patient and other product-stress factor.

Duration of Use

- Short Duration
 Medium Duration
 Long Duration (8 – 14 days)

For hygienic purpose, frequent cleaning of bag is recommended. New bag is required whenever the catheter is changed.

INTENDED USE

Curas C6 closed system bags are used for drainage of bladder and collection of urine. Each bag is sterile, for improved hygiene and infection control. Suitable for long-duration use.

FEATURES & BENEFITS

- Clear ml-graduation markings allow easy reading of the amount of urine collected.
- Lowest graduation mark 25ml is more precise than other standard bags in the market (100ml).
- Ridged universal connector fits all common catheter funnels.
- Non-return valve (NRV) placed on the bag, prevents reflux of urine and ascending infection.
- High capacity cross-valve allows fast, uninterrupted draining and one-hand operation.
- Flexible, 110cm star-shaped kink-resistant tube with large inner diameter ensures optimal, undistruptive flow.
- Tube/slide clamp facilitates urine sampling procedures.
- Needle-free sampling port prevents needle-stick injuries and reduces risk of contamination.
- Anti-reflux drip chamber (2 parts) prevents reflux of urine and ascending infection.
- The reinforced double-hook hanger fits well on all types of bed frames.
- Hydrophobic air filter ensures bacteria-proof, optimum pressure balance in the bag and reliable flow performance.
- Dog house holder secures fixation of outlet tube and prevents contamination.
- Sterile individual packaging and latex-free products.

PRODUCT SPECIFICATIONS

Capacity	2L
Tube Length	110cm (ø 9.6mm)
Needle-Free Sampling Port	Yes
Anti-reflux Drip Chamber With 2 Parts	Yes
Integrated Double-Hook Hanger	Yes
High Capacity Cross-Valve	Yes
Hydrophobic Air Filter	Yes
Tube/Slide Clamp	One
Non-Return Valve	Yes

Composition

- The bag is made of PVC.
- Latex-free.
- Material contains di(2-ethylhexyl) phthalate (DEHP).

Country of Origin

- China

Sterilization

- Sterilized by EtO

Shelf Life

- 5 years
